Change of Registered Office and Principal Place of Business

Optiscan Imaging Limited (OIL: ASX) is pleased to advise that its registered office and principal place of business has changed to:

16 Miles Street,
Mulgrave, Victoria, 3170

The new location provides an opportunity for an enhanced company image whilst the premises provide an enhanced operational environment for staff and an opportunity to renew and refresh workflow practices within OIL.

For further information please contact:

Justin Mouchacca
Company Secretary

About Optiscan

Optiscan is an Australian company that has developed and patented miniaturised confocal microscopes, and is a global leader in the development and application of microscopic imaging and related technologies for medical and research markets.
